To whom it may concern.

We have worked with Hayden LeMaster on an ongoing basis for more than 2 years. He has been instrumental in creating artwork and marketing materials for our business. His work has included mock-ups of our apparel, graphics for social media and our website, and the complete design of our product catalog the past two years.

Hayden brings a highly creative mind to his work. He listens carefully and asks good questions to be sure he understands your ideas, which really speeds up the design process. Many times he helped us see a better way to express our ideas, often improving the designs in ways we could not have imagined ourselves.

We would heartily recommend Hayden to anyone looking for help with their graphic design needs.

Sincerely,

Carolyn Colwell
